

IN THE SPECIFICATION

Please amend the title of the application to read as follows:

11

Method of Treating Airway Disorders

IN THE CLAIMS

Please enter claims 4-9 as follows:

Q2

4. In the medical treatment of sleep apnea syndrome, the method of treatment comprised of distending frontal portions of a patient's neck in a manner effective for alleviating obstruction of the patient's airway in sleep.

5. The method as set forth in claim 4 including the additional step of simultaneously applying an elevated pressure within the patient's airway.

6. The method as set forth in claim 5 wherein said elevated pressure is of a magnitude greater than ambient atmospheric pressure.

7. In the medical treatment of upper airway disorders, the method of treatment comprised of distending frontal portions of a patient's neck in a manner effective for alleviating obstruction of the patient's airway.
